Final Office Action on the Merits

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

2. **The rejection of claim 2 under 35 USC 102(b) over Ito et al. ('151) is maintained.**

Applicant argues that at most the reference discloses an improved analyte solution containing EDU to conduct immunoassays and that there is no teachings or suggestion that EDU can be used as a component of a pharmaceutical composition that is to be administered systemically to a mammal. Applicant's argument was considered but not persuasive for the following reason.

Ito teaches the compound in the presence of water (see col. 6, example 1). The composition comprising EDU and water is encompassed by the instant claim. Applicant's intended use of the composition taught by the prior art is irrelevant to the patentability of the claimed composition. In addition, water is a well known pharmaceutical carrier.

For these reasons and that given in Paper No. 8, the rejection of claim 2 under 35 USC 102(b) over Ito et al. ('151) is maintained.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
